

## STF-27 TFT 27" DISPLAY

- ▶ TFT active matrix
- ▶ high visibility of presented information
- ▶ high contrast
- ▶ wide viewing angle - Super MVA technology
- ▶ long lifetime
- ▶ robust, industrial enclosure
- ▶ light weight
- ▶ anti-reflective coating
- ▶ integrated PC unit (STF-27PC version)
- ▶ remote administration
- ▶ possibility of assembling monitor walls

## EXTERNAL DIMENSIONS

## TECHNICAL SPECIFICATION

DESCRIPTION	TECHNICAL DATA
Resolution	1280 x 720
Contrast	800:1
Brightness	550 cd/m <sup>2</sup>
Viewing angle	176
Panel type	a-si TFT active matrix
Pixel pitch	0,4665mm x 0,4655mm
Display colors	16,7 mln
Response time	12 ms
Power supply	185-260 V AC, 50-60 Hz
Power consumption	100 W (with PC unit 160W )
Communication interface	ethernet 10/100 Mbit/s, TCP/IP (with PC unit)
Weight	21kg
Dimension W x H x L	664mm x 402 mm x 139mm
Active area W x H	597.12mm x 335.88mm
Life time	min. 50 000 h
Inputs	s-video, dvi, vga
Housing colors	black or according to customer's request
Mounting methods	wall bracket, ceiling arm, stand
Optional accessories	integrated PC unit, TV tuner, safety glass
Configuration of optional PC unit	Pentium-M CPU, flash disc or hard disc, 512 RAM, hardware watch-dog, LINUX or Windows, remote administration, optional WAN
